1. Create ECR, ECO, and ECN

Manage your ECR, ECO, and ECN process from inception to completion in a single self-contained application.

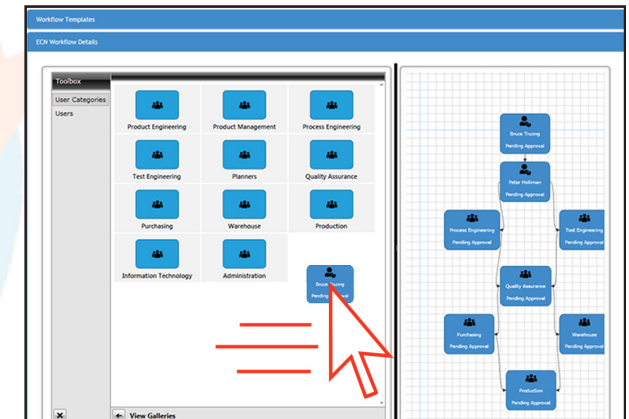

2. Direct ERP Integration

Disposition Inventory, POs, and Jobs for parts under changes. See Cost Summary and Where Used details pulled from your ERP database.

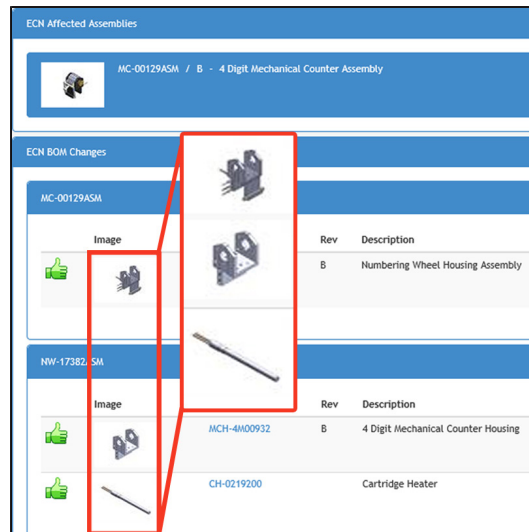

3. Flexible Action and Approval Path

Creating, saving, and modifying an action and approval path is as easy as drag-and-drop.

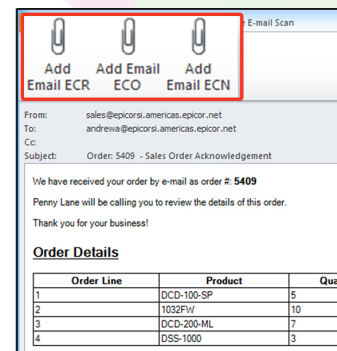

6. Visualize your Work

Highly visual UI displays thumbnail images of parts under change.

5. Outlook Integration

Attach relevant emails. Keep your users informed and in sync.

4. Document and Record Tracking

Attach and store any relevant documentation such as DWG, PDF, Excel, or Word files.
