Features

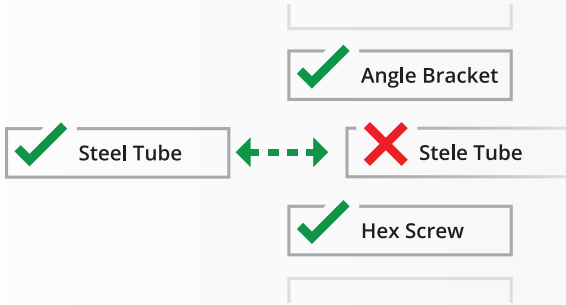

- Real-time, direct, two-way link with D365 BC
- Automated, single-step BOM push
- View BOM change summary
- Push Revision to Business Central and CAD
- Export Excel and PDF files
- Notification for errors and missing fields

Benefits

- Eliminate manual data entry
- Cut design cost
- Improve data consistency
- Improve information flow
- Increase data accuracy
- Reduce cycle time

Resolve Discrepancies

Discrepancies between CAD and Business Central are highlighted, allowing you to select or enter the correct data.

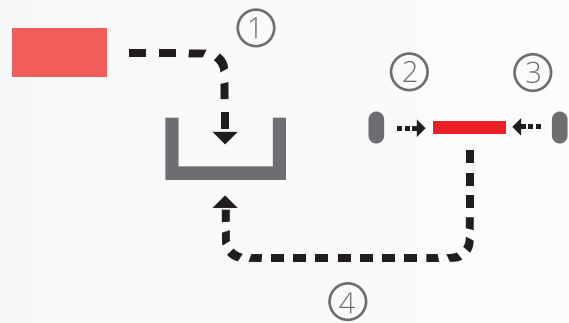

Access Business Central Data

CADLink's direct integration allows you to access Business Central data such as Product Code, Part Class, and Raw Material Part Data from the CADLink interface.

Operations

Assigning routings/operations is easy!
Simply select a work center from a drop-down list.
