Connected to CAD : SolidWorks Connected to BOM Type : StdBom

Features

- Real-time, direct, two-way link with MAX
- Automated, single-step BOM push
- View BOM change summary
- Push Revision to MAX and CAD
- Export Excel and PDF files
- Notification for errors and missing fields

Benefits

- Eliminate manual data entry
- Cut design cost
- Improve data consistency
- Improve information flow
- Increase data accuracy
- Reduce cycle time

Resolve Discrepancies

Discrepancies between CAD and MAX are highlighted, allowing you to select or enter the correct data.

Access MAX Data

CADLink's direct integration allows you to access MAX data such as Alternate Code, Commodity Code, and Raw Material Part Data from the CADLink interface.

Operations

Assigning MAX Operations is easy! Simply select a work center from a drop-down list.

About MAX: MAX ERP software is an ERP for manufacturers. MAX builds business software for SMEs and their accountants. Our innovative technology is aimed at specific business needs, providing an overview of today and insights into the opportunities of tomorrow. MAX inspires businesses to grow. Our 1,600 employees love, share and support our customers' ambition. Like them, we aim high. Like them, we aspire to lead the way. That's how we know it's a bumpy road to success. And that's why we build software to help smooth it out, enabling our customers from all over the world to grow.
