Features

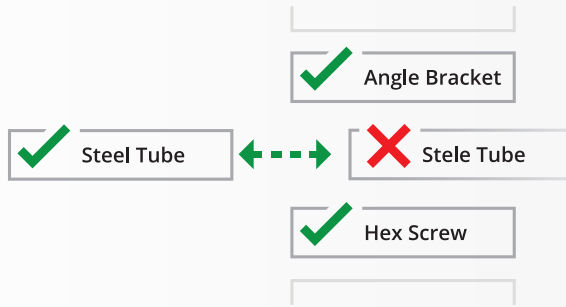

- Real-time, direct, two-way link with Oracle
- Automated, single-step BOM push
- View BOM change summary
- Push Revision to Oracle and CAD
- Export Excel and PDF files
- Notification for errors and missing fields

Benefits

- Eliminate manual data entry
- Cut design cost
- Improve data consistency
- Improve information flow
- Increase data accuracy
- Reduce cycle time

Resolve Discrepancies

Discrepancies between CAD and Oracle are highlighted, allowing you to select or enter the correct data.

Access Oracle Data

CADLink's direct integration allows you to access ERP data such as Product Code, Part Class, and Raw Material Part Data from the CADLink interface.

Operations

Assigning routings/operations is easy!
Simply select a work center from a drop-down list.
